**Subject:** Status of Dimock GW Site - Still On-Hold

All,

As of today sampling for the Dimock GW Site is still on hold. There was a meeting between R3 and HQ yesterday but no change for now.

Attached are the analytical request forms that our region uses to accept and track requests. I have attached the three forms that are for the regional laboratories. Specific instructions are included at the bottom of the request. If R2 and R9 have requests forms that we need to complete please contact Stevie Wilding (410-305-2606).

Below is the file with latest summary of lab efforts. Not much has changed since Tuesday as far as method development goes. As I mentioned yesterday, PAHs might be an issue since lower QLs are needed (SIM analysis for 1ppb or less).

[attachment "CT5865-R33909.doc" deleted by Richard Rupert/R3/USEPA/US] [attachment "CT5865-R33911.doc" deleted by Richard Rupert/R3/USEPA/US] [attachment "CT5865-R33907.doc" deleted by Richard Rupert/R3/USEPA/US]

R33907 - Parameters assigned to R3  
R33908 - Parameters assigned to Isotech (Tier IV Lab)  
R33909 - Parameters assigned to R2  
R33910 - Parameters assigned to NAREL  
R33911 - Parameters assigned to R9  
R33912 - Parameters assigned to Tier IV Lab (micro - 6hr HT)

Let me know if you want the other request forms.

That's the latest.  
Have a great weekend!  
Cindy
